

Bio Sketch

DR. AGUS H. S. REKSOPRODJO

Director

Agus Hasan Sulistiono Reksoprodjo atau yang lebih dikenal dengan panggilan Yono Reksoprodjo lulus sebagai Sarjana Arsitek Bangunan Kapal dari Fakultas Teknik jurusan Mesin, Universitas Indonesia tahun 1987. Dia melanjutkan pendidikan Strata-3 dan meraih gelar *Doctor of Philosophy in Computer Aided Systems Engineering* dengan keahlian *Reverse Engineering Technology* dari *Imperial College, University of London, United Kingdom* tahun 1994. Dalam kehidupan profesionalnya, Yono sempat menggali pengalaman luas mulai dari pekerjaan *engineering design* hingga *general management* di industri-industri kelas dunia seperti *Indonesian Aerospace (IPTN/PTDI)* di Bandung, *Rolls Royce Aero Engine* di Inggris, *Rover Plc* di Inggris, *Milliard Design* di Australia, *Shinwa Engineering International* dan *ARACO* di Jepang. Aktivitas lain mencakup bidang akademik sebagai pengajar di Perguruan Tinggi prestisius di dalam dan luar negeri dan, sebagai penasehat

lepas pada berbagai instansi Pemerintah khususnya di bidang Pertahanan dan Keamanan. Yono juga aktif sebagai anggota Persatuan Insinyur Indonesia (PII) dan Kamar Dagang dan Industri Indonesia (KADIN). Yono kerap melibatkan diri pada kegiatan kemanusiaan bersama *Global Rescue Network* dan sempat duduk sebagai anggota Unsur Pengarah Masyarakat Profesional Badan Nasional Penanggulangan Bencana (BNPB) tahun 2009 – 2014.

Minatnya pada bidang TIK dan kajian *asymmetric strategy* telah mengantarnya menjadi penasehat Panglima TNI

bidang C4ISR tahun 2006-2013. Pada tahun 2011, Yono diundang mengikuti *Visiting Fellowship Program on National Security* dari Departemen Pertahanan Australia serta mengajar sebagai dosen tamu di *Canberra University* dan di *Australia National University*. Yono pernah duduk sebagai anggota Dewan Komisaris PT. Tira Austenite, Tbk tahun 2003-2010.

Saat ini, DR Yono Reksoprodjo masih duduk sebagai *Vice President of Corporate Affairs* Sintesa Group selain sebagai staf pengajar di Universitas Pertahanan (UNHAN).

Agus Hasan Sulistiono Reksoprodjo also known as Yono Reksoprodjo, graduated as a Naval Architect from the Mechanical Engineering Department, Faculty of Engineering, University of Indonesia in 1987. He continued his higher degree to become Doctor of Philosophy in Computer Aided System Engineering majoring in Reverse Engineering Technology from Imperial College, University of London, United Kingdom (UK) in 1994. Within his professional life, Yono had gained experiences starting from engineering design works to higher level in general management at world's class industries such as the Indonesia Aerospace (IPTN/PTDI) in Bandung, Rolls Royce Aero Engine in UK, Rover Plc in UK, Milliard Design in Australia, Shinwa Engineering International and ARACO in Japan. His other activities cover academic roles as lecturer at many prestigious universities in and out the country and as special advisor to Governmental institutions mostly related to Defense and Security. Yono is active at the Institution of Engineers Indonesia (PII) and the Chamber of Commerce and Industry Indonesia (KADIN). Yono involves in humanitarian activities through Global Rescue Network and once seated as Professional Steering Committee member of the National Agency for Disaster Management (BNPb) in 2009–2014. His interest in ICT and asymmetric strategy studies brought him to be the advisor of the Commander in Chief of the Indonesia Defense Forces (TNI) for C4ISR in 2006-2013. In 2011, Yono was invited to join a Visiting Fellowship Program on National Security by the Department of Defense Australia and stay as guest lecturer at Canberra University and Australia National University. Yono was a member of the BOC of PT. TIRA Austenite, Tbk in 2003-2010. Today, DR Yono Reksoprodjo seats as the Vice President of Corporate Affairs of Sintesa Group as well as lecturer at Indonesia Defense University (UNHAN).
